

Behavior List

Ref. No.	Behavior	Grade	Std.	Domain/Category
1	9800	will stand on preferred/non-preferred foot with one hand held for xx seconds		Gross Motor Skills Balance
2	9801	will stand on preferred/non-preferred foot independently for xx seconds		Gross Motor Skills Balance
3	9802	will walk backwards xx steps (independently or with teacher prompts)		Gross Motor Skills Balance
4	9803	will walk sideways xx steps (independently or with teacher prompts)		Gross Motor Skills Balance
5	9804	will walk forward on tiptoes (independently or with teacher prompts)		Gross Motor Skills Balance
6	9805	will walk forward xx steps on a straight line (independently or with teacher prompts)		Gross Motor Skills Balance
7	9806	will walk forward heel-to-toe on a flat surface xx steps (independently or with teacher prompts)		Gross Motor Skills Balance
8	9807	will ascend xx stairs with one hand held		Gross Motor Skills Balance
9	9808	will ascend xx stairs independently		Gross Motor Skills Balance
10	9809	will climb a ladder, alternating feet, xx steps (independently or with teacher prompts)		Gross Motor Skills Balance
11	9810	will walk forward xx steps on a balance beam (independently or with teacher prompts)		Gross Motor Skills Balance
12	9811	will demonstrate appropriate balance responses including extension of the arms when shifted off balance during playground activities		Gross Motor Skills Balance
13	9812	will maintain balance when completing writing tasks on board for xx seconds		Gross Motor Skills Balance
14	9813	will maintain upright seating posture at desk while completing writing tasks for xx minutes		Gross Motor Skills Balance

Behavior List

Ref. No.	Behavior	Grade	Std.	Domain/Category	
15	9814	will demonstrate anticipatory balance reaction during ball toss activities			Gross Motor Skills Balance
16	9815	will sit on toilet independently for xx minutes without losing balance			Gross Motor Skills Balance
17	9816	will perform hand washing at sink standing level unsupported for xx minutes			Gross Motor Skills Balance
18	9817	will transport lunch tray from lunch line to table independently			Gross Motor Skills Balance
19	9818	will walk forward on even surfaces a minimum _____ feet without assist			Gross Motor Skills Locomotor Skills
20	9819	will walk _____ feet with one hand held assist			Gross Motor Skills Locomotor Skills
21	9820	will walk a minimum of _____ feet with a walker/gait trainer			Gross Motor Skills Locomotor Skills
22	9821	will move legs reciprocally for a minimum of 10 feet while bearing own weight with a gait trainer/walker			Gross Motor Skills Locomotor Skills
23	9822	will jump in place with feet together xx trials (independently or with support)			Gross Motor Skills Locomotor Skills
24	9823	will jump forward with feet together xx times (independently or with support)			Gross Motor Skills Locomotor Skills
25	9824	will jump xx times consecutively over a long rope turned by two people			Gross Motor Skills Locomotor Skills
26	9825	will jump rope xx times independently using a short rope			Gross Motor Skills Locomotor Skills
27	9826	will slide xx steps to the left/right using a mature pattern with elevation and rhythm			Gross Motor Skills Locomotor Skills
28	9827	will gallop xx steps using a mature pattern with elevation and rhythm			Gross Motor Skills Locomotor Skills

Behavior List

Ref. No.	Behavior	Grade	Std.	Domain/Category
29	9828			Gross Motor Skills Locomotor Skills
30	9829			Gross Motor Skills Locomotor Skills
31	9830			Gross Motor Skills Locomotor Skills
32	9831			Gross Motor Skills Locomotor Skills
33	9832			Gross Motor Skills Locomotor Skills
34	9833			Gross Motor Skills Locomotor Skills
35	9834			Gross Motor Skills Locomotor Skills
36	9835			Gross Motor Skills Pre-ambulatory
37	9836			Gross Motor Skills Pre-ambulatory
38	9837			Gross Motor Skills Pre-ambulatory
39	9838			Gross Motor Skills Pre-ambulatory
40	9839			Gross Motor Skills Pre-ambulatory
41	9840			Gross Motor Skills Pre-ambulatory
42	9841			Gross Motor Skills Pre-ambulatory

Behavior List

Ref. No.	Behavior	Grade	Std.	Domain/Category
43	9842	will stand without support		Gross Motor Skills Pre-ambulatory
44	9843	will rise from a sitting position to a standing position (independently or with teacher prompt)		Gross Motor Skills Pre-ambulatory
45	9844	will log roll xx revolutions (with assistance or independently)		Gross Motor Skills Pre-ambulatory
46	9845	will initiate participation in playground activities (slides, climbing) involving self-imposed movement on an immobile surface to demonstrate improved accommodation to movement sensations		Gross Motor Skills Sensory Processing
47	9846	will imitate a playground activity involving self-imposed movement on an immobile surface to demonstrate improved accommodation to movement sensations		Gross Motor Skills Sensory Processing
48	9847	will participate in a functional activity involving imposed movement in a ___ plane to demonstrate improved accommodation to movement sensations		Gross Motor Skills Sensory Processing
49	9848	will participate in a school related activity involving imposed movement on a movable surface in a ___ plane to demonstrate improved accommodation to movement sensations		Gross Motor Skills Sensory Processing
50	9849	will maintain participation in group movement activities involving changing planes, directions, and rhythms to demonstrate improved accommodation to movement sensations		Gross Motor Skills Sensory Processing
